

# About Samsara

Our mission is to increase the efficiency, safety, and sustainability of the operations that power our economy. Samsara has built a complete platform for fleet management, driver safety, and compliance, through plug and play hardware and managed through a centralized and intuitively designed dashboard. Customers can use the dashboard to get end-to-end visibility into their fleet operations and gain valuable insights to improve the way they manage their business.

## A unified system for fleet management, driver safety, and compliance.
